EDUCATION

University of Houston

Bachelor of Science in Computer Science, Minor in Mathematics

Houston, TX

2022 – 2027

WORK EXPERIENCE

Technical Sales Specialist Co-op

IBM

September 2026 – December 2026

Austin, TX

- Building **SalesBob**, an **Electron/React/TypeScript** desktop tool that streams **watsonx.ai** responses into a real-time objection-handling overlay for sales calls, using local, on-device speech recognition to trigger relevant playbook content without sending call audio anywhere.

Software Developer Intern

BECU

June 2026 – September 2026

Remote

- Built the **Workflow Management** feature end to end for Campaign Center, BECU's internal marketing platform: an **Azure Cosmos DB** repository layer with full CRUD and custom exception handling, **4** versioned **ASP.NET Core** REST endpoints in **C#** and **.NET 10**, and a **React/TypeScript** UI with filtering and create/edit/delete modals.
- Wrote **23** system, integration, and unit tests with **xUnit v3**, **NSubstitute**, and **WebApplicationFactory**, and fixed a CRLF line-ending bug affecting all **41** frontend .tsx files by rewriting them as raw bytes.

Software Engineer Intern

FUJIFILM Biotechnologies

May 2025 – August 2025

College Station, TX

- Built a cross-platform desktop application using **Python** and **Electron.js** that monitored and pinged **200+** networked lab systems by automating bulk network requests, CSV data parsing, and **SQL** database logging to replace manual checks.
- Wrote RESTful backend services in **Python** and a real-time dashboard in **JavaScript**, **Node.js**, and **Electron.js** visualizing SQL-logged network health, improving issue detection speed by **95%** by surfacing connection failures and latency trends.

Founder and Web Developer

WebRise

January 2025 – Present

Houston, TX

- Founded and operate a web design agency delivering production websites for local businesses, shipping client sites in **Next.js**, **TypeScript**, and **React** with RESTful API endpoints, Vercel Analytics, and responsive layouts.
- Designed and deployed a client portal where customers discover businesses and book appointments directly, handling scheduling, validation, and SEO.

Technical Lead

iCode School

November 2023 – August 2025

Houston, TX

- Led **150+** coding classes for **100+** students in **Python**, **JavaScript**, **HTML/CSS**, and **Lua**, authoring curricula from syntax to working applications.

PROJECTS

Barakah | *Next.js 16, TypeScript, PostgreSQL, Prisma, Plaid API, Zoya API, Recharts, Vercel*

- Built a full stack personal finance platform as a **24 hour** hackathon MVP at hack.msa (UT Austin): **Plaid** bank aggregation across **10,000+** institutions, a wealth engine with live gold, silver, and stock pricing, per-holding ethical screening via **Zoya API**, and typed REST API routes with **Prisma 5** on **PostgreSQL**.

CougarDegree | *JavaScript, Node.js, HTML/CSS, Google Gemini AI API*

- Won the **MLH Best Use of DigitalOcean Gradient AI Award** by building a full-stack web app in **36 hours** at CodeRED Astra, integrating **Gemini AI API** to generate degree plans for **48+** programs.

TECHNICAL SKILLS

Languages: C#, Python, TypeScript, JavaScript, SQL, HTML/CSS

Frameworks/Libraries: ASP.NET Core, .NET 10, React, Next.js, Node.js, FastAPI, Prisma, Vite, Electron.js

Databases/Cloud/Tools: Azure Cosmos DB, PostgreSQL, Microsoft Azure, Azure DevOps, Vercel, Git, xUnit, CI/CD, Agile/Scrum, Splunk, Stripe, Plaid, Figma
